

A detailed wooden playground structure with various animal-themed decorations. On the left, a yellow giraffe with black spots stands next to a green bush with a purple flower and a ladybug. The central part features a black slide and a red slide, both with a green snake design at the bottom. A toucan is perched on a branch above the slides. The structure includes a climbing net and a small platform with a blue flower. The entire set is made of light-colored wood and is set against a white background.
